

ONDŘEJ PEJCHA

Institute of Theoretical Physics
Faculty of Mathematics and Physics, Charles University
V Holešovičkách 2
180 00 Praha 8
Czech Republic

Office: +420 951 552 495
pejcha@utf.mff.cuni.cz
<http://utf.mff.cuni.cz/~pejcha>

Research positions

since Jun 2022 : Associate Professor, Charles University, Prague, Czech Republic

Sep 2017 – May 2022 : Assistant Professor, Charles University, Prague, Czech Republic

Sep 2013 – Sep 2017 : Lyman Spitzer Jr. Fellow at Princeton University

Sep 2013 – Aug 2016 : NASA Hubble Fellow at Princeton University

Education

Aug 2013 : Ph.D., Astronomy, Ohio State University, thesis advisor: Todd A. Thompson

Aug 2010 : Master in Astronomy, Ohio State University

2006–2008 : Master in Theoretical Physics, Summa cum laude, Charles University, Prague, Czech Republic

2003–2006 : Bachelor in Physics, Summa cum laude, Charles University, Prague, Czech Republic

Research interests

Theory and observations of stellar mergers, common envelope evolution, core-collapse supernovae, circumbinary disks, stellar variability (eclipsing binaries, Cepheids, transients), neutron star and black hole formation, stellar and planetary dynamics, All-Sky Automated Survey for Supernovae, radiation hydrodynamics

Honors and awards

2020 : Strouhal's lecture, Faculty of Mathematics and Physics, Charles University

2019 : Neuron Prize for Young and Promising Scientists in Physics

2018 : European Research Council Starting Grant

2017 : Kopal lecture of the Czech Astronomical Society for important scientific results published within the last few years

2017 : Primus award from Charles University

2013 : Hubble Fellowship and Lyman Spitzer Jr. Fellowship, Princeton University

2012/2013 : Distinguished University Fellowship, Ohio State University

2011 : First place in Mathematical and physical sciences at the 25th Annual Hayes Graduate Research Forum, Ohio State University

2008/2009 : Distinguished University Fellowship, Ohio State University

2002 : Jaroslav Heyrovský Endowment Fund Prize

2002 : Grammar School Student Award, The Learned Society of the Czech Republic

2001 : Jindřich Šilhán price "Observer of the year" (Czech Astronomical Society)

Refereed publications

summary: 55 papers total, 17 first-author papers; other bulletins, telegrams and circulars are not shown here. Papers with students and postdocs shown in ***bold italic***. NASA ADS (Oct 2023): 2970 citations, h-index: 31.

1. ***Calderón, D., Pejcha, O., Metzger, B. D., Duffell, P. C., 2023, "The effect of relativistic precession on light curves of tidal disruption events", submitted to MNRAS***
2. Werner, N., et al. (including ***Pejcha, O.***), "Science with a small two-band UV-photometry mission I: Mission description and follow-up observations of stellar transients", submitted to *Space Science Reviews*
3. ***Cehula, J., Pejcha, O., 2023, "A theory of mass transfer in binary stars", MNRAS, 524, 471***
4. ***Gagnier, D., Pejcha, O., 2023, "Post-dynamical inspiral phase of common envelope evolution: Binary orbit evolution and angular momentum transport", A&A, 674, A121***
5. ***Pešta, M., Pejcha, O., 2023, "Mass-ratio distribution of contact binary stars", A&A, 672, A176***

6. **Landri, C., Pejcha, O.**, Pawlak, M., Udalski, A., Prieto, J. L., Barrientos, M., Strader, J., Dong, S., 2022, “OGLE-BLG504.12.201843: A possible extreme dwarf nova with year-long outbursts”, *MNRAS*, 517, 2746
7. Athanasopoulos, D., et al. (including **Pejcha, O.**), 2022, “Asteroid spin-states of a 4 Gyr collisional family”, *A&A*, 666, A116
8. **Pejcha, O.**, Cagaš, **Landri, C.**, Fausnaugh, M. M., De Rosa, G., Prieto, J. L., Henzl, Z., **Pešta, M.**, 2022, “The complex dynamical past and future of double eclipsing binary CzeV343: Misaligned orbits and period resonance”, *A&A*, 667, A53
9. **Pejcha, O., Calderón, D.**, Kurfürst, P., 2022, “Supernovae in colliding-wind binaries: observational signatures in the first year”, *MNRAS*, 510, 3276
10. **Calderón, D., Pejcha, O.**, Duffell, P. C., 2021, “Moving-mesh radiation-hydrodynamic simulations of wind-reprocessed transients”, *MNRAS*, 507, 1092
11. Hanuš, J., **Pejcha, O.**, Shappee, B. J., Kochanek, C. S., Stanek, K. Z., Holoien, T. W.-S., 2021, “The V-Band Photometry of Asteroids from ASAS-SN: Finding Asteroids With Slow Spin”, *A&A*, 654, A48
12. Blagorodnova, N., Klencki, J., **Pejcha, O.**, et al., 2021, “The luminous red nova AT 2018bwo in NGC 45 and its binary yellow supergiant progenitor”, *A&A*, 653, A134
13. **Kurfürst, P., Pejcha, O.**, Krtićka, J., 2020, “Supernova explosions interacting with aspherical circumstellar material: implications for light curves, spectral line profiles, and polarization”, *A&A*, 642, A214
14. Jayasinghe, T., et al. (including **Pejcha, O.**), 2020, “The ASAS-SN Catalog of Variable Stars IX: The Spectroscopic Properties of Galactic Variable Stars”, accepted to *MNRAS*
15. Aydi, E., et al. (including **Pejcha, O.**), 2020, “Direct evidence for shock-powered optical emission in a nova”, *Nature Astronomy*, 4, 776
16. Williams, S. C., et al. (including **Pejcha, O.**), 2020, “AT 2019abn: multi-wavelength observations of the first 200 days”, *A&A*, 637, A20
17. Hanuš, J., et al. (including **Pejcha, O.**), 2020, “(704) Interamnia: a transitional object between a dwarf planet and a typical irregular-shaped minor body”, *A&A*, 633, A65
18. Jayasinghe, T., et al. (including **Pejcha, O.**), 2020, “The ASAS-SN Catalog of Variable Stars VII: Contact Binaries are Different Above and Below the Kraft Break”, *MNRAS*, 493, 4045
19. Jayasinghe, T., et al. (including **Pejcha, O.**), 2020, “The ASAS-SN catalogue of variable stars VI: an all-sky sample of δ Scuti stars”, *MNRAS*, 493, 4186
20. Jayasinghe, T., et al. (including **Pejcha, O.**), 2020, “The ASAS-SN Catalog of Variable Stars V: Variables in the Southern Hemisphere”, *MNRAS*, 491, 13
21. Jones, D., **Pejcha, O.**, Corradi, R. L. M., 2019, “On the triple-star origin of the planetary nebula Sh 2-71”, *MNRAS*, 489, 2195

Students and Postdocs Supervised in Research

- Postdocs: **Damien Gagnier** (since May 2021), **Diego Calderón** (Oct 2019 - Feb 2023, next position postdoc at Hamburg University), **Petr Kurfürst** (2017 – 2020, next position at Masaryk University), **Michał Pawlak** (2017 – 2020, next position postdoc at Jagiellonian University)
- PhD: **Jakub Cehula**, (since Oct 2021, “Theory of binary star interactions”), **Anthony Kirilov** (since Oct 2021, “Radiation hydrodynamics of transients associated with binary star interactions”), **Camille Landri** (since Oct 2020, “Theory and observations of two stars undergoing strong interaction or merger”), **Milan Pešta** (since Oct 2020, “Illuminating binary star evolution with observed populations and theoretical modeling”)
- Master: **David Vokrouhlický** (2020 – 2023, “Structure and evolution of stars deformed by a nearby companion”), **Jakub Cehula** (2019 – 2021, “Stability of stars undergoing rapid mass loss”), **Dominika Hubová** (2019 – 2021, “Angular momentum loss from binary stars due to stellar winds”)
- Bachelor: **Michal Jireš** (2023, “Simulation of rings surrounding the progenitor of SN1987A”), **Matěj Mezera** (2019 – 2020, “Dynamical perturbations of triple stellar and planetary systems seen in gravitational waves with LISA”), **Dominika Hubová** (2017 – 2019, “Mass loss from binary stars”, paper published in MNRAS)
- Other: **Petr Jakubčík** (2018, summer project on “Damped random walk modeling of light curves”, co-author on paper in MNRAS), **Jacob Tyles** (2016 – 2017, “Dynamical response of stars to mass loss: applications to transients”, co-author on paper in ApJ), **Adam Vrátný** (2018), **Semyeong Oh** (2015 – 2017), **Arjun Raghavan** (2015)

Teaching experience

- since 2020 : “Fundamentals of Plasma Theory”, mandatory class for Master students of Theoretical Physics
- spring 2019 : created and taught new class “Astrophysics of Gravitational Wave Sources”
- since 2017 : founded and leading discussions at bi-weekly “Science coffee” discussion, also class “New Developments in Theoretical Physics and Astrophysics”
- 2017 : guest lectures at Problems of Contemporary Physics, Philosophical Problems of Physics, Relativistic Seminar
- 2009/2010 : teaching assistant for undergraduate astronomy classes, Ohio State University

Invited Conference Talks

- July 2022 : Gap Transients: giant eruptions or stellar mergers?, Sexten, Italy
- September 2020 : Plenary lecture at 20th Conference of Czech and Slovak Physicists, Prague, Czechia
- January 2020 : Three-kings conference of young physicists, Slovakia, Bratislava
- May 2019 : Common Envelope Workshop, Flatiron Institute, NY, USA
- June 2018 : Plenary lecture at Week of Doctoral Students, Prague, Czech Republic
- December 2017 : International Workshop on Astronomical X-ray Optics, Prague, Czech Republic
- September 2017 : The Dynamic Infrared Sky, Caltech, Pasadena, USA
- March 2017 : Phenomena, Physics, and Puzzles Of Massive Stars and their Explosive Outcomes, KITP, Santa Barbara, CA
- September 2016 : Fellows at the Frontiers 2016, Northwestern University, Evanston, IL
- June 2016 : Many Riddles About Core-Collapse Supernovae: 1 Bethe and Beyond, Tokyo, Japan (declined)
- June 2016 : Shocks and Particle Acceleration in Novae and Supernovae, New York, NY
- April 2015 : American Physical Society April Meeting, Baltimore, MD

Invited Talks at Research Institutions

(by invitation or at least part of the travel costs covered by the receiving institution)

- Mar 2023 : Colloquium, Pennsylvania State University, PA, USA
- Mar 2023 : Seminar, Purdue University, PA, USA
- Feb 2023 : Seminar, University of Surrey, UK
- Dec 2022 : Seminar, KU Leuven, Belgium
- March 2021 : Seminar, Nicolaus Copernicus Astronomical Center, Toruń, Poland
- November 2019 : Colloquium, Radboud University, Netherlands
- February 2019 : Seminar, Instituto Astrofisica de Canarias, Spain

November 2018 : Colloquium, University of Amsterdam, Netherlands
 March 2018 : Seminar, DESY Zeuthen, Germany
 February 2018 : Seminar, University of Delaware, Newark, DE, USA
 February 2017 : Colloquium, Department of Astronomy, University of Maryland, College Park, MD, USA
 February 2017 : Colloquium, Department of Astronomy, University of Arizona, Tucson, AZ, USA
 January 2017 : Colloquium and Seminar, Institute of Astronomy, University of Hawaii, Honolulu, HI, USA
 November 2016 : CIERA Special Seminar, Northwestern University, IL, USA
 November 2016 : Colloquium, Department of Astronomy, Caltech, Pasadena, CA, USA
 October 2016 : Seminar, Astronomical Observatory, University of Warsaw, Poland
 September 2016 : Seminar, Astrophysics Research Centre, Queen's University, Belfast, UK
 March 2016 : Seminars, Astronomical Institute of the Czech Academy of Sciences, Czech Republic
 December 2015 : Colloquium, Kavli Institute for Astronomy and Astrophysics, Beijing, China
 October 2015 : Lars Bildsten's group meeting, Kavli Institute for Theoretical Physics, Santa Barbara, CA, USA
 October 2015 : Supernova light curves group meeting, California Institute of Technology, Pasadena, CA, USA
 October 2015 : Adam Riess's group meeting, John Hopkins University, Baltimore, MD, USA
 March 2015 : Astronomy Seminar, Dartmouth University, Hanover, NH, USA
 March 2015 : ITC Seminar, Center for Astrophysics, Harvard University, Cambridge, MA, USA
 January 2015 : Astrophysics Seminar, Rutgers University, NJ, USA
 November 2014 : CIERA Special Seminar, Northwestern University, IL, USA
 November 2012 : Informal Seminar, Institute for Advanced Study, Princeton, USA
 October 2012 : Seminar, Theoretical Astrophysics Center, University of California, Berkeley, CA, USA

Other talks outside of Czechia

2023 : Center for Computation Astrophysics (USA)
 2022 : The impact of binaries on stellar evolution (Garching, Munich)
 2021 : IAU Symposium 366 The origin of outflows in evolved stars (Belgium, online), Common Envelope Physics and Outcomes (Israel, online)
 2019 : Center for Computational Astrophysics (USA), Stony Brook University (USA), 233rd Meeting of AAS (USA)
 2017 : conference FOE2017 (USA), Thunch at Princeton University (USA)
 2016 : workshop Preparing for SN science in the LSST era (USA), conference 8th Huntsville GRB Symposium (USA), conference The Supernovae Through the Ages Conference (Chile), University of California, Berkeley (USA), University of Arizona (USA), Hubble Fellows Symposium (USA), 227th Meeting of AAS (USA)
 2015 : Carnegie Observatories (USA), University of California, Santa Cruz (USA), Hubble Fellows Symposium (USA)
 2014 : Columbia University (USA), Princeton University (USA), Hubble Fellows Symposium (USA)
 2013 : Conference on Supernovae (Japan), 221th Meeting of AAS (USA)
 2012 : workshop on Outstanding Problems in Massive Star Research (USA)
 2009 : MDM Science Meeting (USA)
 2008 : Manchester Microlensing Conference (UK)
 2007 : Stellar astrophysics conference (Slovakia)
 2002 : A.F.O.E.V. international conference on Variable Stars (France)

Outreach Efforts

July 2022 : talk at Colours of Ostrava
 February 2021 : talk at Science cafe Nove Straseci
 August 2019 : talks at Astronomical Expedition and Camp for Variable Star Observers
 March 2019 : talk at "Science to go"
 2018 & 2019 : several interviews for feature documentary film on proposed future stellar merger, director Samuel Smartt (Calvin College)
 Summer 2018 : interviews for Czech national newspapers about ERC Starting Grant award

November 2017 : talk, Cafe Academia
 January 2017 : lecture, Amateur Astronomers Association of Princeton
 August 2015 : talk, Undergraduate Summer Research Program, Princeton, NJ
 September 2012 : developed engine for online fits of eclipsing binary minima timings for Section of Variable Stars and Exoplanets: more than 9000 timings uploaded so far
 May 2012 : talk, Astronomical Society Pardubice, Czech Republic
 May 2011 : talk, Astronomical Society Pardubice, Czech Republic
 June 2009 : talk, Astronomical Society Pardubice, Czech Republic
 summer 2008 : developed engine for online fits of exoplanet transit timings for Exoplanet Transit Database: more than 8000 transits uploaded so far
 March 2008 : talk, Astronomical Society Pardubice, Czech Republic
 since 2006 : frequent talks at annual Conference on Variable Star Research and other events organized by Section of Variable Stars and Exoplanets, Czech Astronomical Society

Observing Experience

1. Large Binocular Telescope, 5 nights in March 2009, optical photometry
2. MDM 2.4m, 7 nights in November 2009, optical long-slit spectroscopy and photometry
3. MDM 1.3m, three weeks total in 2009 and 2010, optical long-slit spectroscopy and photometry
4. SAAO 1.0m, two weeks in 2007, optical photometry of microlensing events
5. Brno Observatory and Planetarium 0.4m, Czech Republic, 120 nights in 2002–2005, optical photometry
6. Visual estimates, 6500 magnitude estimates and 120 eclipsing binaries minima timings between 1998 and 2002

Funding Received

2019 – 2023 : European Research Council Starting Grant, EUR 1,243,219
 2019 – 2022 : Czech–American Collaboration grant from Czech Ministry of Education, Sports and Youth, approx. EUR 256,000
 2019 – 2021 : Czech Science Foundation, approx. EUR 143,000 (declined)
 2018 – 2019 : US Embassy in Prague Small Grants Programme, USD 3,000
 2017 – 2020 : Primus Research Programme, approx. EUR 376,000
 2017 – 2018 : co-Investigator on Cycle 25 HST Theory grant #15041 (PI B. Metzger, Columbia).
 No funding received due to moving to Czech Republic
 2016 – 2017 : Lyman Spitzer Jr. Fellowship, approx. USD 90,000
 2013 – 2016 : NASA Hubble Fellowship, USD 310,421
 2008–2009 & 2012–2013 : Distinguished University Fellowship, Ohio State University, approx. USD 26,000 + tuition

Professional Activities

1. SOC member of European Astronomical Society Annual Meeting 2020 symposium “Common-envelope systems: progenitors, mergers and survivors”, Leiden, Netherlands
2. scientific coordinator of physicsphd.cz
3. co-investigator on successful GTC DDT and regular proposals in 2019 (PI D. Jones)
4. co-organizer of Common-envelope evolution and post-common-envelope systems, RAS Specialist Discussion meeting (October 2019)
5. in charge of Facebook page of Institute of Theoretical Physics (since February 2018).
6. panelist for discussion “Next 10 years of Czech astronomy”
7. organized visits of US Women astronomers in Prague to serve as role models for female students (with the support of US Embassy in Prague Small Grant, 2018–2019)
8. established “science coffee” discussion for Institute of Theoretical Physics and Astronomical Institute at Charles University to discuss new preprints and to foster interactions in the department (since 2017)
9. mentoring and career advice to interested students in theoretical physics and astronomy at Charles University (since 2018)

10. member of SOC for Common Envelope Evolution Workshop at Center for Computational Astrophysics, NY (May 2017)
11. co-investigator on ESO DDT proposal, allocated 1 hour on XSHOOTER on VLT (PI M. Pawlak, postdoc in my group)
12. panelist for NASA Hubble Space Telescope proposal review
13. panelist for National Science Foundation Stellar Astronomy panel
14. panelist for the NASA Astrophysics Theory Program
15. reviewer for the NASA Earth and Space Science Fellowship Program, Canadian Time Allocation Committee, Czech Ministry of Education, Youth, and Sports, Polish National Science Centre
16. referee for Nature, Nature Astronomy, The Astrophysical Journal, The Astrophysical Journal Letters, The Astronomical Journal, Monthly Notices of the Royal Astronomical Society, Astronomy & Astrophysics, Astrophysics & Space Science
17. member of the Executive committee of the Variable Star and Exoplanet Section of the Czech Astronomical Society (since 2008)

Foreign visitors to my group in Prague

Prof. Jim Fuller (Caltech, March 2018), Tomas Muller (University of Southampton, July 2018), Dr. Jessica McIver (Caltech, October 2018), Prof. Bernhard Muller (Monash University, December 2018), Prof. Nadia Zakamska (Johns Hopkins University, April 2019), Prof. Hans-Thomas Janka (MPA Garching, April 2019), Dr. Molly Peeples (Space Telescope Science Institute, May 2019), Kareem El-Badry (University of California Berkeley, September 2019), Dr. Nadia Blagorodnova (Radboud University, November 2019), Yuan-Sen Ting (Australian National University, May 2022), Pablo Marchant (KU Leuven, March 2023)
